

# Welcome Back To Our Practice!

During the month of May we will begin seeing patients again. We know how difficult this period has been for all of us and we are excited to be able to provide the dental care you and your families have come to expect from our caring and professional staff.

After extensive planning and consultation with several dental and health organizations here are some of the new initiatives we have undertaken to ensure health and safety for you and our staff:

- 1) Our entire staff has been trained to follow all up to date infection control recommendations made by the ADA, CDC and OSHA.
- 2) We will limit the number of patients seen each day to allow for increased spacing between appointments.
- 3) You will be asked health screening questions when you schedule your appointment and again when you visit the office.
- 4) Our waiting room has been re-configured to allow for proper social distancing.
- 5) You will be asked to wear a mask to your appointment and there will be hand sanitizer available outside the waiting room and throughout the office.
- 6) We will be installing sneeze guards at the front desk.
- 7) Our staff will be wearing N 95 or equivalent masks, head shields, and jackets.
- 8) Each operatory will be equipped with brand new extra-oral dental suction units designed to safely capture chair-side aerosols.

As you can see we take your health and safety seriously and have made significant investments in training, equipment and supplies. We look forward to seeing you again soon!
